Georgia Institute of Technology/Oxford Program  
School of History, Technology, and Society  
HTS 3032: Modern European Intellectual History  
Professor John L. Tone, john.tone@iac.gatech.edu

Course Attributes
This three-credit course fulfills the following requirements:
- Social Science (Board of Regents)
- Global Perspectives (Board of Regents)
- Country and Region Requirement (GT International Plan)
- Ethics (GT)

Learning Outcomes
Students will:
- master key concepts of the major European authors selected for study
- use these concepts to defend positions in class discussions
- analyze the relationship of European ideas to historical and current social, economic, and political forces and events around the globe

Course Requirements
1. Quizzes 60%
2. Final Paper 40%

Paper
A seven-page essay using two or more of our authors to discuss a key concept or debate in European intellectual history. These should be turned in as hard copies and as email attachments.

Attendance Policy
Absences are inadvisable. We cover a lot of ground each day and you will quickly fall behind if you miss a class. Also, missing a class you may miss a quiz. Quizzes are unannounced and frequent.

Reading
Reading is essential to an intellectual history class. You cannot do well in this class if you do not do the reading diligently, take notes, and come to class prepared to discuss the authors and ideas. The readings are all available on line or at T-Square. However, I do not want you buried inside of a reading device during class time when you should be interacting with and making eye contact with me and your fellow students. So do not bring laptops or other electronic devices to class. Instead, I expect you to read carefully ahead of time and take good notes on paper, marking out issues for discussion, noting provocative quotations, and the like.
