Office: 137 Old Civil Engineering Building
Office Hours: T/R 2:00 – 3:30

Course Description
This course is designed to teach students about the social, cultural, and economic importance of sports in a global context. Students will learn about sport as a mass cultural phenomenon and its relationship with education, the economy, technology, families, communities, politics, and the media. We will also consider how race, gender, class, and ethnicity have shaped contemporary and historical sporting experiences.

Learning Objectives:
By the end of this course students should be able to:
• Demonstrate how sport developed as a mass-cultural phenomenon within the broader historical contexts of American and global societies
• Demonstrate how science and technology became pervasive components of modern sport
• Discuss the relationship between sport and society as it relates to education, politics, economics, the media, technology, and globalization
• Discuss how sports and sport participation inform the way people think about their bodies and about gender, race, social class, and local communities
**Required Readings**

*Short reading assignments will also be posted on T-Square. I will notify students of additional readings at least one week prior to the discussion date.

**Course Format**
Since this is a small class, we will emphasize close student-instructor interaction, discussion, and class debates. Students will engage secondary readings, write short essays, and give oral presentations in class. Students will also learn from guest lecturers and discussions led by Georgia Tech faculty in different disciplines.

**Grading and Requirements:**

**Participation**
I do not give points for attendance. However, your success in this course is dependent upon your participation in class discussions. Students are expected to arrive on time, prepared to discuss assigned readings. Tardiness will not be tolerated. If you know in advance that you are going to be late or have to leave early, please notify me. Students should also prepare a summary of the day’s assigned readings. Occasionally, I will collect these summaries in class and count them toward your participation grade.

**Sports Biography & Community Essay and Oral Presentation**
Students will write a formal three-to-four-page essay on a significant historical or contemporary sporting figure. Students will demonstrate how the individual helped shape important changes between the sports world and a specific community. You will be required to use at least three scholarly sources approved by the instructor. On **March 14**th, students will submit their paper in class and give a five-minute oral presentation. You will receive a detailed handout with specific instructions for the paper and oral presentation.

**Response Papers**
Students will write two (2) four-to-five-page response papers; one essay for *Friday Night Lights* and another essay for *Big-Time Sports In American Universities*. We will discuss these books in class before you submit your response papers. I will also provide a handout with specific questions that you will need to address in your essays. The *Friday Night Lights* essay is due on **February 21st** and the *Big-Time Sports* essay is due **April 11th**.

**Class Debates**
The class will be divided into four teams for two debates. On **April 16**th, two teams will debate the following question: Has Title IX Been Successful? On **April 18**th, two teams will debate the following question: Are “Big-Time” College Sports Good for Society? Individual students will be responsible for arguing on behalf of their team in class and
writing a two-to-three-page paper on their team’s position and a description of their role on the team. Students will be required to cite sources in their papers and in the debates. You will receive a handout with further instructions.

**Final Exam:** The final exam will include a short answer section and an essay section. The cumulative exam will cover material from lecture, readings, and discussions. You are required to write your essay answers in a **blue book**. Blue books can be purchased at the bookstore. On the day of the exam students must bring a blue book, two pens, and their student identification card.

**Grading Scale**

**Academic Honesty**

Students in this class will be expected to abide by the Georgia Tech honor code. Academic misconduct of any kind will not be tolerated. All students are responsible for understanding and complying with Georgia Tech rules. For information see [http://www.honor.gatech.edu](http://www.honor.gatech.edu)

**General Courtesy Guidelines**

I expect you to respect your classmates and me at all times. You are expected to be on time for class, refrain from speaking out of turn, and **turn off all electronic devices before class begins**. I will not tolerate sleeping in class, text messaging, or using your computer for any purposes other than taking notes. If you choose to use a laptop for notes, you are required to sit near the back of the room. If you engage in any kind of distracting or inappropriate behavior I reserve the right to ask you to leave the class.

**Accommodations for Students with Disabilities**

If you have a disability that may require assistance or accommodation, or you have questions related to any accommodations for testing, note takers, readers, etc., please speak with me as soon as possible. Students may also contact the Office of Disability Services, located in the Office of the Dean of Students (ODOS). The ODS phone number is 404-894-2563.
